SAFETY DATA SHEET

Section 1: Identification

Product identifier used on the label: Product Name:	Westco ZBS
Other means of identification: Product Description:	Identified uses: Iubricant stuffing, flame retardants and AC foaming agent, Activator could evidently improve product performance.
Synonyms:	Substance Name: Benzenesulfinic Acid Zinc Salt (BM/ZBS)
Recommended use of the chemical and restrice Product use/Restriction:	<u>tions on use</u> : lubricant stuffing, flame retardants and AC foaming agent, Activator could evidently improve product performance.
Chemical distributor, or other responsible	party. Name, address and telephone number:
Distributor Name:	Western Reserve Chemical Corporation
Address:	4837 Darrow Road
	Stow, OH 44224
	USA
General Phone Number:	330-650-2244
General Fax Number:	330-650-2255
Emergency Phone Number:	
Emergency Phone Number:	Chemtrec 1-800-424-9300 USA
Website:	www.wrchem.com

GHS Class: * Skin Sensitizer, Category 1. * Eye Irritant, Category 2. * Respiratory tract irritant. Hazard Statement: * May cause skin irritation. * May cause expiratory irritation. * May cause eye irritation. Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigated		Section 2: Hazard(s) Identification
Signal Word: WARNING! GHS Class: * Skin Sensitizer, Category 1. * Eye Irritant, Category 2. * Respiratory tract irritant. Hazard Statement: * May cause skin irritation. * May cause expiratory irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substant have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated	Classification of the chen	nical in accordance with CFR 1910.1200(d)(f)
GHS Class: * Skin Sensitizer, Category 1. * Eye Irritant, Category 2. * Respiratory tract irritant. Hazard Statement: * May cause skin irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.	GHS Pictograms:	
GHS Class: * Skin Sensitizer, Category 1. * Eye Irritant, Category 2. * Respiratory tract irritant. Hazard Statement: * May cause skin irritation. * May cause expiratory irritation. * May cause expiratory irritation. * May cause eye irritation. * May cause eye irritation. Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.		
* Eye Irritant, Category 2. * Respiratory tract irritant. Hazard Statement: * May cause skin irritation. * May cause respiratory irritation. * May cause eye irritation. Precautionary Statements: Do not handle until all safety precautions have been read and understood. Dot not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.	Signal Word:	WARNING!
 * Respiratory tract irritant. * May cause skin irritation. * May cause respiratory irritation. * May cause eye irritation. Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated. 	GHS Class:	
Hazard Statement: * May cause skin irritation. * May cause respiratory irritation. * May cause eye irritation. * May cause eye irritation. Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.		
 * May cause respiratory irritation. * May cause eye irritation. * May cause eye irritation. * May cause eye irritation. * Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substant have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated. 	Hazard Statement:	
Precautionary Statements: Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required. Hazards not otherwise classified that have been identified during the classification process: Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.		* May cause respiratory irritation.
Not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly after handling. Use personal protective equipment as required.Hazards not otherwise classified that have been identified during the classification process:Route of Exposure:Eyes. Skin. Inhalation. Ingestion.Eye:Causes eye irritation. May cause chemical conjunctivitis.Skin:Causes skin irritation.Inhalation:Causes respiratory tract irritation. The toxicological properties of this substan have not been fully investigatedIngestion:May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.		* May cause eye irritation.
Route of Exposure: Eyes. Skin. Inhalation. Ingestion. Eye: Causes eye irritation. May cause chemical conjunctivitis. Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substant have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.	Precautionary Statement	not breathe dust/fume/gas/mist/vapors/spray. Wash hands thoroughly
Eye:Causes eye irritation. May cause chemical conjunctivitis.Skin:Causes skin irritation.Inhalation:Causes respiratory tract irritation. The toxicological properties of this substand have not been fully investigatedIngestion:May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.	Hazards not otherwise cl	assified that have been identified during the classification process:
Skin: Causes skin irritation. Inhalation: Causes respiratory tract irritation. The toxicological properties of this substant have not been fully investigated Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.	Route of Exposure:	Eyes. Skin. Inhalation. Ingestion.
Inhalation:Causes respiratory tract irritation. The toxicological properties of this substand have not been fully investigatedIngestion:May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.	Eye:	Causes eye irritation. May cause chemical conjunctivitis.
have not been fully investigatedIngestion:May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.	Skin:	Causes skin irritation.
Toxicological properties of this substance have not been fully investigated.	Inhalation:	Causes respiratory tract irritation. The toxicological properties of this substance have not been fully investigated
Chronic: Effects may be delayed.	Ingestion:	May cause gastrointestinal irritation with nausea, vomiting and diarrhea. The Toxicological properties of this substance have not been fully investigated.
	Chronic:	Effects may be delayed.

Section 3: Composition/ Information on Ingredients

Chemical Name	Synonym	CAS#	Conc.
Benzenesulfinic acid zinc salt	BM / ZBS	24308-84-7	>98%

Section 4: First-Aid Measures

Description of necessary measures:

- Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.
- Skin Contact: Get medical aid. Flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse.
- Inhalation: Remove from exposure and move to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid. Do NOT use mouth-to-mouth resuscitation.
- Ingestion: Never give anything by mouth to an unconscious person. Get medical aid. Do NOT induce vomiting. If conscious and alert, rinse mouth and drink 2–4 cupful's of milk or water. Wash mouth out with water.

Notes to Physician:

Treat symptomatically and supportively.

Section 5: Fire-Fighting Measures

Suitable and unsuitable extinguishing media:

Suitable Extinguishing Media:

Use water spray, dry chemical, carbon dioxide, or chemical form. As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/ NIOSH (approved or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

|--|

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

Personnel Precautions: Use proper personal protective equipment as indicated in Section 8.

Environmental precautions:

Environmental Precautions: Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately, observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Provide ventilation.

Section 7: Handling and Storage

Precautions for safe handling:

Handling: Minimize dust generation and accumulation. Avoid contact with eyes, skin and clothing. Keep container tightly closed. Use with adequate ventilation. Wash clothing before reuse. Avoid breathing dust.

Conditions for safe storage, including any incompatibilities:

Storage: Store in a cool, dry place. Store in a tightly closed container.

Specific end use(s):

Work Practices: Safety showers and eye wash stations should be available.

Section 8: Exposure Controls/Personal Protection

EXPOSURE GUIDELINES:	
Appropriate engineering	controls:
Engineering Controls:	Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate ventilation to keep airborne concentrations low.
Exposure Limits CAS# 243	808-84-+7: Personal Protective Equipment Eyes: Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

Skin Protection Description:	Wear appropriate protective gloves to prevent skin exposure.
Clothing Protection:	Wear appropriate protective clothing to prevent skin exposure.
Respiratory Protections	Follow the OSHA respirator regulations found in 29 CFR 1910 or European Standard EN 149. Use a NIOSH/MSHA or European EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

PPE Pictograms:

Section 9: Physical and Chemical Properties

PHYSICAL AND CHEMICAL PROPERTIES:

- Physical State:Appearance: White powder
- Not available Odor: Not available PH: Vapor Pressure: Not available Viscosity: Not available Boiling Point: Not available Freezing/Melting point: 215-221 °C Autoignition Temperature: Not available Flash Point: Not available Explosion Limits, lower: Not available Explosion Limits, upper: Not available Decomposition Temperature: Not available Specific Gravity/Density: Not available $Zn(C_6H_5O_2S)_2.2H_2o$ Molecular Formula: Molecular Weight: 383.8

Se	ection 10: Stability and Reactivity
<u>Chemical Stability:</u>	
Chemical Stability:	Stable under normal temperatures and pressures.
Conditions to Avoid:	
Conditions to Avoid:	Dust generation.
Incompatibilities with Other Materials	
Incompatibilities with Other Materials	: Acids, bases, reducing agents, strong oxidizing agents.
Hazardous Decomposition Products:	
Hazardous Decomposition Products:	Carbon monoxide, carbon dioxide, hydrogen bromide
Hazardous Polymerization:	
Hazardous Polymerization:	Has not been reported.
Sec	tion 11: Toxicological Information
Toxicological Information:	
RTECS#:	CAS# 24308-84-7 unlisted.
LD50/LC50:	Not available.
Carcinogenicity:	Benzenesulfinic acid zinc salt Not listed by ACGIH, IARC OR NTP.

Sect	tion 12: Ecological Information (non-mandatory)
<u>Ecotoxicity:</u>	
Ecotoxicity:	Not available.
Secti	ion 13: Disposal Considerations (non-mandatory)
Description of Waste:	
Waste Disposal:	Dispose of in a manner consistent with federal, state and local regulations.
Sec	tion 14: Transport Information (non-mandatory)
	Not available.
DOT Shipping Name:	
IATA Shipping Name:	Not available.
IMDG Shipping Name:	Not available.
Sect	ion 15: Regulatory Information (non-mandatory)
Safety, health and environmental	regulations specific for the product:
	European/International Regulations European Labeling in Accordance with EC Directives Hazard
Symbols:	XI Risk
Phrases:	R 36/37/38 Irritating to eye, respiratory system and skin.
Safety Phrases:	S 26 in case of contact with eyes, rinse immediately with plenty of water
	And seek medical advice. S 37/39 Wear suitable gloves and eye/face protection. WGK (Water Danger/Protection)
	CAS# 24308-84-7: No information available.
Canada:	None of the chemicals in this product are listed on the DSL/NDSL list.

CAS# 24308-84-7 is not listed on Canada's Ingredient Disclosure List. US FEDERAL TSCA CAS# 24308-84-7 is not listed on the TSCZ inventory.

It is for research and development use only.

Section 16: Other Information

SDS Revision Date: January 13. 2020

Notes: Important Note: This information relates to the specific product described herein and may not be valid for this material when used in combination with other raw materials. The information provided is without warranty regarding its accuracy or completeness. The information may not be valid under all conditions. The user has the final responsibility for determining the suitability of the product in a given application
