

Cata-Chek® 820

Stabilizer Product Profile

Product Description

Cata-Chek® 820, a dibutyltin dicarboxylate, is recommended as a heat stabilizer in flexible vinyl formulations requiring a high degree of clarity. It is non-sulfur staining, furnishes good lubrication, is readily soluble in most common plasticizers, and provides minimum water blushing.

Cata-Chek® 820 can also be useful in the stabilization of chlorinated paraffins and other chlorinated organic materials. Cata-Chek® 820 is recommended as a polyurethane catalyst.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Physical State	Clear Yellow Liquid
Specific Gravity	1.045
Viscosity (Gardner)	34 centipoise at 25°C
Color (Gardner)	5
