

Therm-Chek® 5918

Stabilizer Product Profile

Product Description

Therm-Chek® 5918 is a liquid barium-cadmium-zinc heat stabilizer for use in flexible PVC and plastisols. It was designed for opaque and clear applications in extrusion, injection molding, and plastisols that require excellent long-term stability.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.
