

Therm-Chek® 760X

Stabilizer Product Profile

Product Description

Therm-Chek® 760X is a non-toxic paste heat stabilizer, which conforms to CFR Title 21, Parts 178.2010, 181.27, and 182.1320. It is formulated for use in flexible PVC compounds and plastisols. It is formulated to perform in plastisol, extrusion, calendaring and injection molding applications where FDA approval is needed.

Therm-Chek® 760X has exceptional clarity in PVC compounds. When compared to other non-toxic heat stabilizer systems, Therm-Chek® 760X has superior long-term stability. This stabilizer can be used for finished products, which require low odor and the absence of free phenol.

In plastisols, this stabilizer provides good air release and viscosity control. Therm-Chek® 760X is suitable for both standard and low soap dispersion resins. It is compatible with epoxidized soybean oil.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Appearance	White Paste
Particle Size (Hegman)	4 min.
