

Therm-Chek® SP 1250

Stabilizer Product Profile

Product Description

Therm-Chek® SP 1250 is a vegetable based, non-toxic calcium, zinc powder heat stabilizer for use in extrusion, blown film, and plastisol PVC applications.

Therm-Chek® SP 1250 provides good early color hold and improved long term color hold compared to other non-toxic stabilizers. Therm-Chek® SP 1250 can be used in blown film, extrusion, or plastisol applications.

The ingredients of Therm-Chek® SP 1250 are listed in 21 CFR 178.2010 or 184.1 for food contact applications.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Physical State	White Powder
Specific Gravity	0.997
Bulk Density (g/cc)	0.312
