

## Therm-Chek® SP 1606

### Stabilizer Product Profile

#### Product Description

Therm-Chek® SP 1606 is a non-toxic calcium-zinc stabilizer. It is designed for use in PVC non-toxic applications.

Therm-Chek® SP 1606 is a high efficiency, low odor, non-toxic stabilizer. It is designed for use in all types of PVC formulas, but works best in calendered and extruded formulations, including rigids.

Therm-Chek® SP 1606 is a free-flowing powder. It may be dry blended easily, or where desired, pre-dispersed in plasticizer. All ingredients of Therm-Chek® SP 1606 are FDA sanctioned under CFR 178.2010 or 181.24.

Recommended use level is 1.0 to 2.0 phr of stabilizer in combination with 0.5 to 1.0 phr of Therm-Chek® 5526 and 2.0 to 5.0 phr of Plas-Chek® 775.

#### Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.
