

## Therm-Chek® SP 413

### Stabilizer Product Profile

#### Product Description

Therm-Chek® SP 413 is a non-toxic powder heat stabilizer developed for use in clear PVC compounds for applications requiring FDA. When used in properly formulated compounds, Thrm-Chek® SP 413 can yield products with exceptional clarity and excellent early and mid-term color hold.

The additives used to formulate Therm-Chek® SP 413 are sanctioned under 21 CFR sections 175.105, 175.300, 176.170, 176.180, 177.2600, 178.2010 and 182.8994.

Recommended use levels for Therm-Chek® SP 413 range from 0.5 phr to 1.2 phr depending on application.

#### Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

#### Typical Properties

Appearance	Free flowing, off-white powder
Specific Gravity	1.1
