

## Therm-Chek® SP 530

### Stabilizer Product Profile

#### Product Description

Therm-Chek® SP 530 is a barium-cadmium-zinc PVC heat stabilizer.

Therm-Chek® SP 530 is a non-lubricating, general purpose stabilizer designed for use in plasticized calendaring and extrusion compounds. It is compatible with a wide range of PVC formulations and especially recommended for those applications requiring excellent light stability and sulfide stain resistance.

#### Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

#### Typical Properties

Appearance	Clear Amber Liquid
Specific Gravity	1.0
Viscosity (Gardner)	A
Color (Gardner)	6
