# MATERIAL SAFETY DATA SHEET CALIGHT RPO DLC®-A

Date Revised: June 20, 2000

SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION         TRADE NAME: Calight RPO DLC-A         CHEMICAL NAME: Petroleum hydrocarbon on silicon dioxide         MATROCHEM, INC. P.O. Box 1205 Savannah, GA 31402-1205         Savannah, GA 31402-1205         Telephone Numbers: Transportation Emergencies: CHEMTREC (U.S.A.): (800) 424-9300 (24 hours) CHEMTREC (International): (202) 483-7616 (24 hours, call collect)         Product Information:       (912) 236-4464 (EST, 8:00AM - 4:00PM M-F)         SECTION II - HAZARDOUS INGREDIENTS         The component(s) listed below is identified as a hazardous chemical under the criteria of the OSHA Hazard Communication Standard (29 CFR 1910.1200).         ACGIH OSHA NGREDIENT CAS # (TLV) (PEL) UNITS Silicon Dioxide 7631-86-9 10 6 mg/m3         SECTION III - PHYSICAL DATA         Section NII - FIRE & EXPLOSION DATA         CHEMMIC Provide Is present.         Section NI - FIRE &
CHEMICAL NAME: Petroleum hydrocarbon on silicon dioxide Company:  NATROCHEM, INC. P.O. Box 1205 Savannah, GA 31402-1205  Telephone Numbers: Transportation Emergencies: CHEMTREC (U.S.A.): (800) 424-9300 (24 hours) CHEMTREC (U.S.A.): (912) 236-4464 (EST, 8:00AM - 4:00PM M-F)  Toduct Information: (912) 236-4464 (EST, 8:00AM - 4:00PM M-F)  SECTION II - HAZARDOUS INGREDIENTS  The component(s) listed below is identified as a hazardous chemical under the criteria of the OSHA Hazard Communication Standard (29 CFR 1910.1200).  ACGIH OSHA NGREDIENT CAS # (TLV) (PEL) UNITS Silicon Dioxide 7631-86-9 10 6 mg/m3  SECTION III - PHYSICAL DATA Boiling Point: IBP > 260EC Specific Gravity: 1.064 /apor Density (Air = 1): > 5 EVaporation Rate: Negligible Appearance and Odor: Off-white, free flowing powder with mineral oil odor.  SECTION IV - FIRE & EXPLOSION DATA  FLASH POINT (Method Used): 150EC (PMCC) Material may ignite at or above the flash point if an ignition source is present.  FLAMMABLE LIMITS: N/DA AUTOIGNITION TEMPERATURE: N/DA  EXTINGUISHING MEDIA: Dry chemical, carbon dioxide, water fog, and foam.  SPECIAL FIRE FIGHTING PROCEDURES: Use water spray to cool containers exposed to flames. Fire
Company:       NATROCHEM, INC. P.O. Box 1205 Savannah, GA 31402-1205       Health 1 Flammability 1 Reactivity 0         Telephone Numbers:       Savannah, GA 31402-1205         Transportation Emergencies: CHEMTREC (U.S.A.):       (800) 424-9300 (24 hours) CHEMTREC (International):       (202) 483-7616 (24 hours, call collect)         Product Information:       (912) 236-4464 (EST, 8:00AM - 4:00PM M-F)         SECTION III - HAZARDOUS INGREDIENTS         The component(s) listed below is identified as a hazardous chemical under the criteria of the OSHA Hazard         Communication Standard (29 CFR 1910.1200).         NGREDIENT       CAS # (TLV)       UNITS         Silicon Dioxide       7631-86-9       0       mg/m3         SECTION III - PHYSICAL DATA         Boiling Point: IBP > 260EC       Specific Gravity: 1.064         Apor Density (Air = 1): >5       Evaporation Rate: Negligible         Apperaance and Odor: Off-white, free flowing powder with mineral oil odor.         Section IV - FIRE & EXPLOSION DATA         FLASH POINT (Method Used): 150EC (PMCC) Material may ignite at or above the flash point if an ignition source is present.         "LAMMABLE LIMITS: N/DA       AUTOIGNITION TEMPERATURE: N/DA         XINNGUSHING MEDIA: Dry chemical, carbon dioxide, water fog, and foam.         SPECIAL FIRE FIGHTING PROCEDURES: Use water spray to cool containers exposed to flames. Fire

SPECIAL FIRE FIGHTING PROCEDURES: Use water spray to cool containers exposed to flames. Fire
ighters should wear respiratory protection (negitive pressure if available)
igners should wear respiratory protection (dositive pressure if available)
JNUSUAL FIRE & EXPLOSION HAZARDS: Fumes, smoke and oxides of carbon.
SECTION V - HEALTH HAZARD DATA
CHRONIC HEALTH EFFECTS: An epidemiological study was conducted which included 165 precipitated
silica workers who had been exposed for an average of 18 years. No adverse effects were noted in
complete medical examination (including chest roentgenograms) of these workers. Pulmonary function
lecrements were correlated only with smoking and age but not with the degree or duration of dust
exposure. Laboratory studies have also been conducted in small animals via inhalation to levels of
precipitated silica dust of up to 126 mg/m3 for periods from six months to two years. Although
precipitated silica was temporarily deposited in the animals lungs, most of the deposited material was
eleared soon after the dust exposure ended. The results of all studies performed by, or known to, PPG

indicate a very low order of pulmonary activity for synthetic precipitated silica.

# NATROCHEM MSDS SECTION V - HEALTH HAZARD DATA (cont)

PRIMARY ROUTE OF ENTRY- Inhalation, eye and skin.

# CHEMICAL LISTED AS CARCINOGEN OR POTENTIAL CARCINOGEN: None. NTP: NO IARC: NO OSHA: NO

#### **EFFECTS OF EXPOSURE-**

EYES- Mildly irritating. May cause reversible eye irritation. Excessive contact with powder can cause drying of mucous membranes of eyes due to absorption of moisture and oils.

SKIN- Mildly irritating. May cause reversible skin irritation. Prolonged skin contact may cause dermatitis or oil acne.

INHALATION- Nuisance dust. Excessive contact with powder can cause drying of mucous membranes of nose and throat due to absorption of moisture and oils. This material can also cause nasal irritation and nosebleeds. Breathing mists may cause dizziness or pulmonary irritation.

INGESTION- Not significantly toxic. May cause cramps and diarrhea.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE- Persons with breathing problems or lung disease should not work in dusty areas unless a physician approves and certifies their fitness to wear respiratory protection.

## SECTION VI - EMERGENCY & FIRST AID PROCEDURES

EYE CONTACT: Immediately rinse with clean water for 15 minutes. Retract eyelids often. If irritation persists, seek medical attention.

SKIN CONTACT: Immediately remove contaminated clothing. Wash skin thoroughly with mild soap and water. Flush with lukewarm water for 15 minutes. Seek medical attention if ill effect or irritation develops.

INHALATION: If overcome by exposure, remove victim to fresh air. Consult a physician.

INGESTION: Do not induce vomiting. Consult a physician.

#### SECTION VII - REACTIVITY DATA

STABILITY: Stable.

MATERIALS TO AVOID- Avoid alteration of product properties before reuse. Calcining, which may result in crystalline formation or mixing with additives may alter toxicological properties. Strong oxidizers. Never permit oil to get in an oxygen regulator.

CONDITIONS TO AVOID- Avoid high temperatures (>800 C) treatment.

HAZARDOUS DECOMPOSITION PRODUCTS: Oxides of carbon and other combustion products of hydrocarbons when burned.

HAZARDOUS POLYMERIZATION: Will not occur.

## NATROCHEM MSDS SECTION VIII - SPILL OR LEAK PROCEDURES

PAGE 3 OF 4

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: MINIMIZE SPILL AREA. Vacuum spill material and place in closed plastic bags for disposal. Consult your SPCC plan.

WASTE DISPOSAL METHOD: In accordance with local, state, and federal regulations. Material may become hazardous waste through use.

## SECTION IX - SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION: Use a respirator such as 3M 9900 or equivalent for protection against pneumoconiosis producing dusts.

VENTILATION: Provide explosion proof ventilation as required to control airborne dust levels. The sum total of all ingredients may emit vapors during normal processing. All possible health effects are not known and individual sensitivities will vary. Effective exhaust ventilation should always be provided to draw dust, fumes and vapors away from workers to prevent routine inhalation. Ventilation should be adequate to maintain ambient workplace atmosphere below the limits listed in Section V.

PROTECTIVE GLOVES: Impervious gloves to protect against contact with product.

EYE PROTECTION: Safety goggles.

OTHER PROTECTIVE EQUIPMENT: Protective clothing, eye wash station, safety shower.

#### SECTION X - SPECIAL PRECAUTIONS

HANDLING AND STORAGE: Handling can create explosive dust clouds. Eliminate ignition sources, use explosive proof equipment. Conveying and processing equipment should be spark-proof, well bonded and grounded. Avoid dust accumulations.

OTHER PRECAUTIONS: Wash with soap and water before eating, drinking, smoking, or using toilet facilities. Launder contaminated clothing before reuse.

## SECTION XI - REGULATORY INFORMATION

TOXIC SUBSTANCE CONTROL ACT (TSCA):

The components of this product are contained on the Inventory of the Toxic Substance Control Act.

SARA TITLE III INFORMATION:

SECTION 313 - TOXIC CHEMICALS:

This product contains the following toxic chemicals subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right-To-Know Act of 1986 (40 CFR 372):

CAS REGISTRY # CHEMICAL NAME PERCENT BY WEIGHT

This product does not contain a toxic chemical in excess of 1% of the mixture.

This information must be included in all MSDS's that are copied and distributed for this material.
